SUBJECT: FORMER UNITED NUCLEAR CORPORATION – NAVAL PRODUCTS FACILITY  
LOCATED AT 71 SHELTON AVENUE, NEW HAVEN, CONNECTICUT

Dear Mr. Uruskj:

This letter refers to a telephone discussion held on October 19, 2010, between you and me, Robert Bonito, Property Manager GE, and Keith McConnell, Deputy Director, Decommissioning and Uranium Recovery Licensing Directorate NRC, to discuss the status of decommissioning activities at the former Nuclear Corporation – Naval Products (UNC) facility located at 71 Shelton Avenue, New Haven Connecticut.

During this discussion, you indicated that an access agreement needs to be established between General Electric Corp. /UNC and Olin, before decommissioning activities can commence. Access to the property located adjacent to 71 Shelton Avenue is needed due to a sewer located on that property. You further indicated that you believed an agreement could be reached by approximately November 15, 2010. You stated that shortly after the agreement is reached a revised decommissioning schedule would be submitted to the NRC. The schedule will indicate that decommissioning will commence by mid April 2011 and be completed within four months, approximately August 2011. You and Mr. McConnell emphasized the need to complete decommissioning of this site as soon as possible.

If you have any questions regarding this issue or if additional delays appear eminent, please contact Laurie Kauffman at 610-337-5323.

Thank you for your cooperation.

Sincerely,
