Subject: Response to US NRC Request for List of Planned Topical Report Submittals for FY2011, FY2012, and FY2013

By References 1 and 2, the NRC requested that GE Hitachi Nuclear Energy (GEH) and Global Nuclear Fuel (GNF) provide a list of planned topical report submittals for FY2011, FY2012 and FY2013. This letter provides the combined response for GEH and GNF.

Please note that Enclosure 1 contains proprietary information of the type that GEH maintains in confidence and withholds from public disclosure. The information has been handled and classified as proprietary to GEH as indicated in its affidavit. The affidavit contained in Enclosure 2 identifies that the information contained in Enclosure 1 has been handled and classified as proprietary to GEH. GEH hereby requests that the information in Enclosure 1 be withheld from public disclosure in accordance with the provisions of 10 CFR 2.390 and 9.17.

The information contained in Enclosure 1 is deemed proprietary in its entirety therefore no non-proprietary version is provided.

There are no plans to submit fee exemption requests for the topical reports listed in Enclosure 1. While it is possible that in the extended future new plants may reference some of the topical reports listed in Enclosure 1, the near term likelihood is remote and the application has been listed as only to "Existing" plants.

If you have any questions, please contact Andy Lingenfelter at (910) 819-5954 or me.

Sincerely,

James F. Harrison
Vice President, Fuel Licensing
Regulatory Affairs
GE Hitachi Nuclear Energy
