Mr. Inge,

To date we have not conducted any public meetings in the topics you have described below. These topics are still being evaluated and our findings will be documented in the staff's safety evaluation.

Thank you,

Stephen Monarque:

Following up on our brief discussion at the Glen Rose Luminant reactors permit hearing, the attached lays out some of our group's concerns. Other concerns include: i) the continuing build-up of unspent fuel at the plant; ii) proper planning for evacuation from the Pecan Plantation residential area in event of an emergency; iii) the question of extension of the mandatory evacuation ring around the expanded facility, with its effect on our property values.

Has the NRC work group that you lead had any public hearings on these, and other, safety and environmental issues? If so, where and when were they held?
