Administrative Judges and Parties,

At the close of oral argument yesterday, the NRC staff ("Staff") indicated that it would transmit electronically to the Atomic Safety and Licensing Board ("Board") an electronic copy of the 2006 version of MOX Services' Fundamental Nuclear Material Control Plan. The ADAMS ML extension for that document is ML062860340. Per the terms of the Protective Order established by the Board in this proceeding, the document contains Controlled Information. The Staff will enclose an electronic copy of the document in a separate email to Ms. Katie Tucker. Upon request by Counsel for the Intervenors, Staff will transmit by U.S. First Class mail paper copies of this document for Intervenors' use.
