**ADAMSAccessionNumber:** ML103060275

Mitch,

The request to extend the request for additional information (RAI) response date to November 12, 2010 is approved.

Recognizing that the subject RAI is the third RAI for this license amendment request and that this is the second response extension for this RAI, if the response is not received by November 12, 2010, we will consider our options under 10 CFR 2.108, "Denial of application for failure to supply information."

I will be placing a copy of this message into ADAMS.

Thank you,  
Marshall David

**Subject:** Request to Extend the Submittal Date for the Byron UHS RAI Response (TAC Nos. ME1669 and  
ME1670)

Mr. David,

The response to the request for additional information for the Byron UHS license amendment was approved by the Byron Station Plant Operations Review Committee (PORC) on Monday, October 25, 2010. The

response was recommended for approval by the Nuclear Safety Review Board (NSRB) on Thursday, October 28, 2010; however, final approval from the NSRB Chairman is still pending. It is anticipated that this approval will take several days; therefore, Exelon Generation Company, LLC, respectfully requests permission to extend the submittal date for this response to Friday, November 12, 2010.

Best Regards,

Mitch
