**Subject:** 2.206 Petition for TMI-2

I am sending this note to document my actions regarding the 2.206 Petition for TMI-2. In accordance with MC 8.11, I spoke with Mr. Eric Epstein on Thursday, October 28, 2010, to inform him of the PRB recommendations regarding the processing of his petition request. I informed Mr. Epstein of the following:

1. The PRB is recommending that his petition request be processed in accordance with 10 CFR 2.206. I offered Mr. Epstein an opportunity for a post-PRB meeting. Mr. Epstein declined the offer;
2. NRC will send him an Acknowledgement Letter by November 15, 2010;
3. The 2.206 process is a public process. I reminded Mr. Epstein that his September 30, 2010, submittal has been placed in ADAMS as a public document. He had no issues. I discussed with Mr. Epstein that his submittal contained his address and phone number which the NRC usually removes from public documents. Mr. Epstein stated that he wanted his contact information to be made publicly available.
4. A transcript of the PRB meeting is being made from the recording, and a copy would be sent to him when it becomes available.

This email will be entered into ADAMS.
