David M. Howe, Acting Program Director  
Radiation Protection Services  
Public Health Division  
Oregon Health Authority  
800 NE Oregon Street, Suite 640  
Portland, OR 97232-2162

Dear Mr. Howe:

We have reviewed the proposed changes to the Oregon regulations in Divisions 102 and 116, "Licensing of Radioactive Material and Use of Radionuclides in the Healing Arts," respectively, received by our office on Tuesday, October 26, 2010. These regulations were reviewed by comparison to the equivalent Nuclear Regulatory Commission (NRC) rules in 10 CFR Parts 32, 35 and the requirements of the one amendment identified in the enclosed State Regulation Status (SRS) Data Sheet. We discussed our review of the regulations with Todd Carpenter on November 19, 2010.

As a result of our review, we have four comments that have been identified in the enclosure. Please note that we have limited our review to regulations required for compatibility and/or health and safety. Under our current procedure, a finding that the Oregon regulations meet the compatibility and health and safety categories of the equivalent NRC regulation may only be made based on a review of the final Oregon regulations. However, we have determined that if your proposed regulations were adopted, incorporating our comments and without other significant change, they would meet the compatibility and health and safety categories established in the Office of Federal and State Materials and Environmental Management Programs (FSME) Procedure SA-200.

We request that when the proposed regulations are adopted and published as final regulations, a copy of the "as published" regulations be provided to us for review. As requested in FSME Procedure SA-201, "Review of State Regulatory Requirements," please highlight the final changes, and provide a copy to Division of Materials Safety and State Agreements, FSME.

The SRS Data Sheet summarizes our knowledge of the status of other Oregon regulations, as indicated. Please let us know if you note any inaccuracies, or have any comments on the information contained in the SRS Data Sheet. This letter, including the SRS Data Sheet, is posted on the FSME website: <http://nrc-stp.ornl.gov/rulemaking.html>.

If you have any questions regarding the comments, the compatibility and health and safety categories, or any of the NRC regulations used in the review, please Kathleen Schneider, State Regulation Review Coordinator at (301) 415-2320 ([kathleen.schneider@nrc.gov](mailto:kathleen.schneider@nrc.gov)) or Nicole Coleman at (301) 415-1048 ([nicole.coleman@nrc.gov](mailto:nicole.coleman@nrc.gov)).

Sincerely,

***/RA A.D. White for/***
