Subject: 72B Responses

Importance: High

Chris,

After reviewing the NRC staff responses to our input on the final three questions submitted on 10/14/10, and after discussions with our customer, DOE-Carlsbad Field Office (CBFO), I would like to ask you to postpone issuing the "official" letter from your organization.

After a review of the NRC staff draft RSIs, we believe that the response that the NRC requires will have some unintended consequences, namely the potential for greatly decreased shippable content quantities, and may lead DOE-CBFO management to request that we withdraw this application. A final decision by DOE-CBFO will be made very soon and with that in mind I am asking that you wait until we can get back with you on our path forward on this application for the 72B. If you wish to discuss this issue further please contact me at either my office number or via my cell phone numbers listed below.

Regards,

Todd
