

1.0 Introduction

This document provides the certified design material for the Advanced Boiling Water Reactor (ABWR); U.S. NRC Docket No. 52-001.

The additional information and changes to the certified design material (Tier 1) for the ABWR, as provided in STP Nuclear Operating Company's response to the aircraft impact assessment rule in accordance with 10 CFR 50.150, are incorporated by reference for the applicable Tier 1 sections*.

* See Section 2.0 of DCD/Introduction.
