John –

For, 6.2 and 6.3, I am not aware of any substantive issue or question. An earlier version of BLN was previously concurred on; the 6.2/6.3 content has not changed since the first concurrence; and the content is entirely standard.

Based on my current knowledge, I'm expecting the SPCV concurrence of these sections to be straightforward and simple.

Thanks  
Don

Don, I'll take a look. Off the top of your head, were there substantive comments made that we need to address?

I'll take a look, but I'll be in ACRS this afternoon.

Thanks,

John

John –

For Chapter 6, I believe your branch (maybe Michelle Hayes) provided inputs for Sections 6.2 (Containment Systems) and 6.3 (Passive Core Cooling Systems).

If this is correct, can you please make sure there is someone who will cover those sections for SPCV.

Please let me know if you have any questions.

Thanks  
Don
