Dear Mr. Hale:

The U.S. Nuclear Regulatory Commission (NRC) staff in the Containment and Ventilation Branch of the Office of Nuclear Reactor Regulation is reviewing the Auxiliary Feedwater Modification license amendment request for Units 1 and 2 of the Point Beach Nuclear Plant. The staff determined that additional information is required to continue its review. Draft questions are provided as an attachment to this e-mail.

The NRC staff would like to discuss these questions with your staff in a conference call or meeting prior to formal issuance. Among other things, the discussion will include how the NRC would formally issue these questions and how the licensee will respond to them.

The sole purpose of this e-mail and its attachment is to prepare you and others for the proposed conference call or meeting. This e-mail and its attachment do not convey a formal NRC staff position, and do not formally request additional information.

Please don't hesitate to contact me if you have any questions or concerns.

Sincerely,

*Terry A. Beltz, Senior Project Manager
