PROJECT REVIEW FOR GLOBAL NUCLEAR FUELS- AMERICAS (GNF-A), L.L.C.,
DOCKET NUMBER 70-1113

Dear Ms. Nicole Holmes:

This letter refers to our meeting at the Nuclear Regulatory Commission, Region II office in Atlanta, Georgia on November 2, 2010, during which you discussed your progress and status of reviewing and revising the GNF-A. The meeting was beneficial and provided the NRC with a status of your ISA Project, which is one of the resulting corrective actions from violations documented in Inspection Report 2010-003. The meeting afforded the members of the public the opportunity to ask questions and provide feedback to the NRC regarding your ISA Project and status. The meeting also afforded you the opportunity to discuss your interpretation of when 10 CFR 70.72 license amendments are required. Further discussions regarding these assumptions and methodologies are required, as discussed at the public meeting.

The list of meeting attendees is Enclosure 1, and a copy of the GNF-A presentation is contained in Enclosure 2.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
