**Subject:** Ticket Number DWMEP201100001 - Response to Pathfinder Mines Corporation letter

**Ticket Number:** DWMEP201100001  
**Subject Letter:** Sent to Keith McConnell from Bernard Bonifas (representing Areva-Pathfinder Mines Corporation) and dated October 6, 2010 regarding personnel changes effective November 1, 2010

As of November 1, 2010, Aveva-Pathfinder Mines Corporation (PMC) is reducing personnel which include the services of Mr. Tom Hargrove as the Safety Radiation Officer (SRO) for the Lucky Mc (LM) and Shirley Basin (SB) sites. Mr. Mark Owens is currently employed by PMC and will continue employment with PMC as the new SRO.

Paul Michalak and I had a phone conversation with Mr. Bonifas on October 25, 2010 regarding the qualification of Mr. Owens. As a follow up, I interviewed Mr. Owens by phone on October 26, 2010. Mr. Owens informed me of his degree in Geosciences, his 25 plus years with PMC, and the Radiation Safety Officer training that he is scheduled to take November 8-12. Mr. Owens also completed similar training with Texas Nuclear Company in Austin Texas. He has filled-in for Mr. Hargrove on the management side of the business and is familiar with the LM and SB sites. Mr. Hargrove will serve as a consultant and be available for knowledge management transfer November 1-12.

I have attached the LM license condition 35 and SB license condition 35 with sections 5.2-5.3 from the SB license application which states the qualifications for the RSO.

Based on my review of information contained in the subject letter regarding Mr. Owens' educational and professional experience, phone interviews with Messrs. Bonifas and Owens, review of the conditions as stated in the LM and SB licenses, and the information in the SB license application, I find Mr. Owens education and experience consistent with the conditions as stated in the licenses in order for him to assume responsibilities of the SRO.

**As a result of my review, ticket number DWMEP201100001 is considered closed.**

Ted Carter
