Subject: NRC RAI Status Reports

Janelle – As a follow-up to our discussion on Friday, the NRC has been using an electronic RAI tracking report for several ongoing COLA reviews, which may be useful for the VCS ESPA review. For example, on the NRC website for the STP 3&4 COLA, under the Request for Additional Information link, and then under Safety RAIs, there is a link to an “eRAI Safety Report.” This report provides a listing of each RAI, and a Question Status. The Question Status uses standard terms for each milestone in the response process leading to issue closure. This “eRAI Safety Report” looks to be identical for each COLA project. The report is public and is listed on the NRC website for the STP, Bellefonte, Blue Bell, Calvert Cliffs, Fermi, Levy, Shearon Harris, Summer, Lee, and Vogtle COLAs, so it is being used for most of the active COLA projects.

This would be a useful tool for the VCS ESPA review as we get into the detailed review.

Thanks.

Dave Distel
