Bill,

In the TVA letter of October 1, 2010, you commit to revise the Cyber-Security Plan by November 30. Please include in item 1 on the Bucket List.

Attached are two versions of the bucket list. The first file is the updated version of the file we have been using for the last several months. The second file is a reduced version in which I have purged all of the completed actions and added in responsible org/name. If this is ok with the NRC, I would like tomorrow to have some verification that the updates to the old list are acceptable and then archive that list. Then we would transition to the new list and track actions just like we have been doing but with a new starting list.
