Subject: RE: Hydrology Audit dates - a few additional options

Chris,

As a clarification, the options for the audit are:

Option 1:

One audit during the week of November 29th (for all hydrology issues)

Note: If option 1 is selected, please keep in mind that this is the same week as the proposed date for the Environmental Scoping meeting.

Option 2:

Two audits total. One for Surface Water and Tsunami during the week of November 8th and another for Ground Water during the week of either November 1st or December 6th.

Note: The audit dates for option 2 are proposed to occur during two separate audits due to contractor availability.

As for the site visit, October 18th is the date proposed. If October 18th does not work, the staff is open to other days during the week of October 18th for the site visit.

I hope this helps

Janelle

Subject: RE: Hydrology Audit dates - a few additional options

Janelle,

Dave is at an NEI meeting today, so he may be delayed in responding to you. My notes from the call showed the Hydrology audit being the week of 12/6, 11/29 was not called out as an option. In addition, we thought the Bechtel portion of the audit would be for all hydrology issues. It looks like from below that the NRC wants to split up the office visit into 2 separate sections, i.e., surface water and groundwater. Is this correct? We are in the process of aligning the correct personnel for this audit, so please confirm you do want 2 separate sessions for hydrology.

Thanks,

Chris Kerr
Exelon NPD

Subject: Hydrology Audit dates - a few additional options

Hello Dave,

During the status call today, I mentioned that a few alternate dates would be provided for the audit at Bechtel's offices.

Here are the alternate audit dates:

Surface Water and Tsunami audit the week of 11/8
Ground Water audit the week of 11/1 or week of 12/6

It is anticipated that each will require about 2 1/2 to 3 days at Bechtel.

I think holding the audit the week of 11/1 or the week of 12/6 (while separate due to contractor availability) work a bit better than the time frame initially proposed which was during the week of 11/29. As Tomeka shared during the status call, the environmental scoping meeting is scheduled for the 2nd of December which would mean that the site audit and scoping meeting would be in the same week if it is decided that the week of 11/29 is the preferred option for the audit.

Note: Site visit would still be October 18th (as initially proposed)

Let me know if you have any questions.

Thanks

Janelle
