**Subject:** RE: VCS ESPA - Use of Online Reference Portal

Good Morning Dave,

I understand from the email below that Exelon has decided to implement the online reference portal in support of the Victoria County Station Early Site Permit application review.

At this time, a letter confirming this decision is not necessary (this email should suffice). I will begin working on the confirmation letter in the next day or so.

In the interim, please contact me with any questions.

Thanks

Janelle

**Subject:** VCS ESPA - Use of Online Reference Portal

Janelle – Based on our discussion last week, Exelon has decided to implement the online reference portal tool to improve the efficiency of the ESP safety and environmental reviews. This tool will provide NRC and NRC-contractor staff limited read-only access to basis documents and other reference material cited in the VCS ESP application.

Our understanding is that based on this email notification the NRC will forward a letter to Exelon requesting confirmation that certain conditions and restrictions will be maintained for the duration of the VCS ESPA review process. These conditions and restrictions include:

1. portal is password-protected and passwords assigned on a need-to-know basis
2. printing, saving, and downloading functions disabled
3. portal is sufficiently secure to prevent staff from printing, saving, or downloading any documents
4. conditions of use of the portal are to be displayed on the log-in screen and require concurrence by each user

Alternatively, Exelon is prepared to provide a letter to the NRC confirming these conditions and restrictions without a formal request letter from the NRC, if acceptable.

Please let me know, and we will proceed accordingly.

Thanks.

Dave Distel
