Subject: RE: Draft hydrology visit agenda

Hi Josh and Dave,

I was able to get a response on most of the items that I needed to follow up on with respect to the upcoming visit to the Victoria County Station Site.

With regards to visiting the Bays (San Antonio or Matagorda), there are a few members of the team who would like to see the area between the site and Matagorda Bay. We will plan for them to do this on their own on Monday (works better) which may require them to leave a few hours earlier than everyone else to do so, but we are ok with that.

I inquired about whether or not anyone has any special dietary needs (i.e. vegetarians) and will confirm next week. Please be sure to let us know what the cost is prior to the trip so that we can ensure that everyone has cash on hand.

And last but not least, we have no problems with the early start time as proposed in the agenda that you sent Josh.

I think that just about covers it. I plan to follow up with Jill next week about the question that you all asked during our conversation today regarding a visit to the Port of Victoria.

Have a good weekend

Janelle

Subject: Draft hydrology visit agenda

Janelle,

As discussed on our call this morning, please find attached a proposed agenda for the October 18th hydrology site visit. Note that the allotted time will not support a group visit to either San Antonio Bay or Matagorda Bay; however, we can discuss alternate options for a specific reviewer(s) if that would be helpful.

Our goal is to make the visit as productive as possible, so we welcome questions or suggestions that will allow us to better meet your reviewers' needs.

Thank you,
JT
