**SUBJECT:** Request for amendment No. 107 to University of Missouri-Columbia Broad Scope License No. 24-00513-32, Docket No. 030-02278.

Dear Colleen:

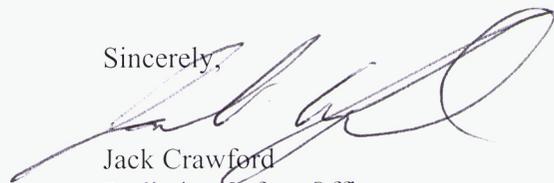

The purpose of this letter is to request that the NRC Radioactive Materials License (RML) 24-00513-32 (current amendment No. 106) issued to the Curators of the University of Missouri-Columbia be amended to include the following changes to the first sentence of item 10 under “Conditions” (page 5 of 10) to reflect the name change of our University and one of its hospitals.

#### Proposed Revision

1. Under “Conditions” (currently page 5 of 10) the first sentence of item 10 should read;  
*Licensed material may be used at the licensee’s facilities located at The University of Missouri, Columbia Missouri campus, Columbia, Missouri; Ellis Fischel Cancer Center, 115 Business Loop 70 west, Columbia, Missouri; and at Women’s and Children’s Hospital, 404 Keene Street, Columbia, Missouri.*

No ownership of these two locations has changed just the names. If you have any further questions please don’t hesitate to call (573)-882-0931, or email me at [crawfordw@missouri.edu](mailto:crawfordw@missouri.edu)

Sincerely,

Jack Crawford  
Radiation Safety Officer
