SUBJECT: WELL DATA SERVICES, INC., LICENSE AMENDMENT, CONTROL NO.  
573495

Dear Mr. Stultz:

This refers to your NRC license listed above. The latest amendment to your license (Amendment No. 04) does not include maximum possession limits for the radioisotopes authorized on the license. Current NRC policy requires that a license include a maximum possession limit for each radioisotope authorized on the license. Therefore, we have administratively amended your license to incorporate this requirement and Item 8 of the license is revised to include maximum possession limits for the radioisotopes authorized on the license. These limits are based on the information that you provided in your letter dated October 29, 2010, and in our telephone conversation of November 11, 2010. Additionally, Condition 13 that appears in the previous amendment to your license is removed from the amended license because it is no longer applicable. Enclosed with this letter is the amended license.

**You must request and receive an amendment to your license *prior* to acquiring licensed material in excess of the limits specified in Item 8 of the license.**

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

R. Stultz
