**BELL BEND NUCLEAR POWER PLANT
CHANGES TO BBNPP FSAR
CHAPTER 13 BASED ON CCNPP
UNIT 3 RAI No. 44 RESPONSE
BNP-2010-273 Docket No. 52-039**

Reference: 1) G. Gibson (UniStar Nuclear Energy) to U.S. Nuclear Regulatory Commission (NRC), "Updated Response to Request for Additional Information for the Calvert Cliffs Nuclear Power Plant, Unit 3, RAI No. 44, Revision 3, Radiation Protection Design Features", UN#09-515, dated December 17, 2009 (ML093560444)

The purpose of this letter is to identify changes that will be made to the BBNPP Combined License Application (COLA) and the endorsement of a provided response included in the response made to the Request for Additional Information (RAI) by the Calvert Cliffs Nuclear Power Plant (CCNPP) Unit 3, the Reference COLA (RCOLA).

In response to CCNPP Unit 3 RAI No. 44, Revision 3, Question 12.03-12.04-1 (Reference 1), CCNPP Unit 3 identified a necessary change to the RCOLA. This RCOLA change is also applicable to the BBNPP COLA and the referenced change will be incorporated into a future revision of the BBNPP COLA.

The only new regulatory commitment in this letter is to update the BBNPP COLA at a future date.

If you have any questions, please contact the undersigned at 570.802.8102.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on November 4, 2010

Respectfully,

Rocco R. Sgarro
