

FEMA

NOV 02 2010

Mr. Elmo E. Collins  
Regional Administrator  
U.S. NRC Region IV  
612 East Lamar Blvd., Suite 400  
Arlington, Texas 76011-4125

Dear Mr. Collins:

Enclosed is a copy of the final report for the September 22, 2010, medical services drill of the offsite radiological emergency response plans, site-specific to the Wolf Creek Generating Station. The participants in this drill were the Kansas Department of Health & Environment, Coffey County Emergency Medical Services, Coffey County Hospital, Coffey County Emergency Management, and Wolf Creek Nuclear Operating Corporation. The report was prepared by Federal Emergency Management Agency Region VII staff. The final report will be provided to the state of Kansas.

Based on the results of the drill evaluation, the offsite radiological response plans and preparedness for the state of Kansas and the affected local jurisdictions site-specific to the Wolf Creek Generating Station can be implemented and are adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect the health and safety of the public in the event of a radiological emergency at the site. Therefore, the Title 44 CFR, Part 350 approval of the offsite radiological emergency response plans and preparedness for the state of Kansas, site-specific to the Wolf Creek Generating Station, granted on April 4, 1989, will remain in effect.

There were no deficiencies or areas requiring corrective action (ARCA's) identified. There were no ARCAs or deficiencies from previous exercises to be addressed in this drill.

If you have any questions or concerns regarding the report, please contact Mr. Ronald L. McCabe, Regional Assistance Committee Chair, at 816-283-7007 or by email [ron.mccabe@dhs.gov](mailto:ron.mccabe@dhs.gov).

Sincerely,

A handwritten signature in cursive script that reads "Beth Freeman".

Beth Freeman  
Regional Administrator
