Subject: Update on inspection results, changes at licensee facility

(NOTE: This will be used as the Documents Title in ADAMS)

The RSO called to inform me that the lock box was now moved to the warehouse building, which is also a locked building. The authorized users now have to enter the locked building, get the key to the lock box, and remove the appropriate keys before going to the locked gauge storage building to obtain a portable gauge.

The RSO also asked if we had made a final decision on the results of the inspection. I told her that we were still considering the issue, and that I would call her when I had new information for her. I also told her she could contact me anytime if she wanted an update or had any other questions.

Action Required: send to LAT for inclusion in inspection package
