I think you should wait, I just got comments back from Safety and there are many changes that I might need to talk to you about. just give me today or maybe until tomorrow to call you , are you in the office these two days?

Thanks Haimanot,

I have prepared a transmittal letter for the revised RAI package. Can I go ahead and send this letter or should I wait for final concurrence from safety and OGC.

Thanks
Jim

Jim

Here is a formatted version of the RAI package, I did not save in on the shared drive since this package is still going through concurrence and might change once the safety lead and OGC see it.
