**Cc:** Davis (FSME), Jennifer  
**Subject:** Questions

Jon: We are in the final stretch and have some more questions:

1. Does U1 know yet if there are to be two or four wells
2. How is the application review going with WDEQ. Will you get a decision in the 2<sup>nd</sup> Q of 2010 as indicated in Table 1.4-1
3. Which wellfield is to be dug first #1 or #2
4. Any intention to use Class III wells?
5. Has any agreement been reached with receiving facilities for disposing municipal waste and 11(e)2 byproduct material
6. Do you intend to use anhydrous ammonia

Thanks
