- 4. A transfer of ownership at our facility occurred in 2005 and we are unsure if the Nuclear Regulatory Commission was notified. We are providing this information to you under the assumption that notification was not done at the time the change took place.
- Our facility, currently known as United Memorial Health Center, License No. 21-32293-01, became part of the Spectrum Health System on April 27, 2005.
- A name change occurred on May 26, 2006. Our name is now Spectrum Health United. The name on our NRC license should reflect this change.
- During the transfer there were no changes in personnel or duties related to licensed activities. Any new personnel were required to complete the same training as required before the transfer of ownership. Spectrum Health United is managed separately from other institutions in the Spectrum Health System.
- There were no changes in the organization, location, facilities, equipment or procedures that relate to the licensed program.

- Spectrum Health United maintained and continues to maintain a compliant surveillance program and is audited quarterly by a medical physicist to insure they remain compliant with the current radiation protection program and all NRC regulations. During the transfer there were no open inspection items related to materials license number 21-32293-01.
