Call to follow-up on email from Jim Hanley/EPA Region 8 on request to review draft chapters on water resources and air quality as they become available. Topics for discussion:

- clarify our schedule
- what are epa's expectations for how we would address their comments (ie whether they would be addressed before the draft is issued which we do not have in our schedule.)
- what is epa's interest and jurisdiction with regard to this site and other sites in WY
- if and when to provide draft sections for hydro and air quality
