Briana and Jennifer,

TRC is currently working on getting all the information from Arcadis for the 2006 report. I am hoping that they will have it sometime this week. As soon as I find out more details I will let you know.

Mike,

Thank you for putting this together. It will definitely be a help to have a starting point to facilitate drafting and finalizing an MOA.

I believe that Jenny has talked with Nathan Fleming of TRC to pass on details regarding what format the SHPO is looking for on the 2006 Arcadis Dry Willow Phase IV report. Once we receive that report from you, NRC will review that report and then forward it to the SHPO with a letter stating our determination of agreement/non-agreement with the report's conclusions. NRC plans to be working on the MOA in the meantime, but it seems from our conversations that the SHPO wants all available information in front of him before proceeding, so we can expect to move forward with the MOA once the SHPO has the 2006 report.

I think Jenny had answered all of Nathan's questions, but please let me or her know if there are any additional details you need from us about transmittal of the report. Thanks,

Briana

Jennifer,

Attached is a draft MOA for your use on the Nichols Ranch ISR Project for the Pumpkin Buttes TCP. If you have any questions, please give me a call.
