Dear Ms. Holahan:

**Purpose**

The purpose of this letter is to submit for U.S. Nuclear Regulatory Commission (NRC) approval the USEC Inc. (USEC) response to the Request for Additional Information (RAI) relating to proposed page changes for the Curtiss-Wright Electro-Mechanical Corporation (Curtiss-Wright) Security Program (CW-SP-01).

**Background**

In a letter dated September 9, 2010 (Reference 1), USEC submitted proposed changes to CW-SP-01. In a letter dated September 30, 2010 (Reference 2), the NRC identified additional information needed before final action could be taken. Reference 2 requested a response within 30 days. However, additional time to respond was granted by NRC project management due to the fact that the correspondence was not received by USEC until October 15.
