Dear Mr. Leu:

The U.S. Nuclear Regulatory Commission (NRC) is returning without action (RWA) the application XCOM1216 (enclosed) for a license to export five circle seal purge regulator valves for the Control Rod System in the Second Nuclear Power Station at the Taiwan Power Company, Taiwan.

Although a specific license application number of XCOM1216 was assigned, we recently determined that a specific license is not required because the components you proposed to export are eligible for shipment under the general license as specified in 10 CFR §110.26 of NRC's regulations.

Also by copy of this letter, I am requesting that NRC's Office of the Chief Financial Officer refund the \$2,600.00 review and processing fee.

If you have further questions regarding this application or would like to discuss other NRC export licensing related matters, please contact Jill Shepherd on (301) 415-3635.

Sincerely,
