Burns Harbor, IN 46304

SUBJECT: REPORTS DATED OCTOBER 28 AND 29, 2010, OF STUCK SHUTTER ON
FIXED GAUGE – ARCELORMITTAL BURNS HARBOR, LLC

Dear Mr. Sarvanidis:

This acknowledges receipt of your letters dated October 28 and 29, 2010, to the U.S. Nuclear Regulatory Commission (NRC), regarding your October 18, 2010, report of a stuck shutter on a fixed gauge.

According to your initial report, on October 18, 2010, a radiation worker observed that the shutter on a slab detection radiation gauge would not close while performing a wipe test of the gauge. Your 30 day response indicated that you removed the gauge from service the following day, the manufacturer shipped the gauge back for inspection, and no employees received abnormal exposures to radiation. We have reviewed your letter and have no further questions at this time. This event will be examined during a future inspection.

In accordance with Title 10 of the Code of Federal Regulations (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

C. Sarvanidis
