I cannot find the attached e-mail in ADAMS, even though I thought had put in. Please put in ADAMS as 040-08502, public.
Ron

Donna:

The "name change" amendment that we are working on now is a licensing action, but is not a change of control. It is a relatively simple licensing action, but our financial folks needed to review the names to make sure they were consistent, etc., and the review was in the que behind other reviews.

The ARMZ transaction will be a formal change of control, as what happened when Cogema was sold to Uranium One, Inc. Uranium One (with information and input from ARMZ) will need to submit the same type/style application that Cogema submitted (with information and input from Uranium One), and the review will be just as rigorous.

Uranium One should refer to NUREG-1556, Vol. 15, "Program-Specific Guidance About Changes of Control and About Bankruptcy Involving Byproduct, Source, or Special Nuclear Material Licenses," for additional detailed guidance on transfer of ownership or control of licensed activities at uranium recovery facilities, specifically Chapter 5. Information in RIS 2008-19, "Lessons-Learned from Recent 10 CFR Part 70 License-Transfer Application Reviews," may also be useful or applicable to part 40 license transfer actions. Applications for transfer of ownership are considered to be "major licensing applications" which are highlighted by appropriate noticing on NRC's Web site. Consistent with the guidance and terminology discussed in NUREG-1556, Volume 15, the term "change of control," rather than the statutory term "transfer of control", is being used by NRC.

I strongly suggest U1/ARMZ allow at a minimum, 6 months, for this review. Let me know if you need any more information.

Ron

Hi Ron,

While we are on the subject of name changes and "change of control", we also need to get some feedback as to the email and letter I sent you while you were gone ... this pertains to the ARMZ transaction whereby ARMZ would gain a controlling interest in our ultimate parent Uranium One Inc. (51%). We are planning to submit the formal package for change of control, but if there is a different approach that you prefer, or if it is not necessary, I need to know as soon as possible.

Thanks Ron,

Glad you are back!

Jon:
My phone and answering system must not be working properly. I've been gone for two+ weeks on vacation (came back yesterday) and didn't have any messages. That kind of surprised me. I must now assume a few persons, like yourself, may have left messages and they were not recorded.

I received input technical input on the name change amendment from my financial reviewer while I was gone, but have not had a chance to look it over since I've been back. I am going to try to get it completed in the next week and in concurrence review. It may be a few weeks after that to actually get it signed out.

Ron

Ron, as per the message I left you last week, could you provide me with the status of the amendment request to SUA-1341 submitted in January to changes the name of the facility on the license from Cogema Mining, Inc. to Uranium One USA, Inc. As you may recall, Uranium One submitted responses to your April 5 letter requesting additional information on May 10, 2010. Your timely response to this request would be greatly appreciated.
