Subject: RE: UN#10-099 -- Air Conformity (UNCLASSIFIED)

Classification: UNCLASSIFIED
Caveats: NONE

Dimitri: We have reviewed the Air Conformity Report and have discussed with the NRC. The Corps will need to know what the emissions would be during construction activity associated with the work under Corps jurisdiction within wetland/stream/waterway etc. and for future maintenance dredging, and what is the proposed offset and mitigation if the work exceeds the thresholds (for each year) of 100 tons per year?

How soon can Unistar get the answers to us so that it can be included in the FEIS?

Thanks

woody

Importance: High

As requested, attached is the Calvert Cliffs air conformity analysis developed by AECOM for UniStar and submitted to the NRC.
