Dear Mr. Velasquez:

As you know, the NRC staff periodically requests updates regarding the status of pending applications to help formulate budgets. As part of the budget formulation process, the staff must estimate the number of projects in any given fiscal year. Toward that end, please provide the staff with an updated letter of intent regarding the **Gas Hills and Roca Honda Conventional Projects** within 20 days of receipt of this e-mail. The revised letter may be sent to:

Re: Amendment to Notice of Intent to File a License Application
Gas Hills Project

Dear Mr. Miller:

This is to further amend Strathmore Minerals submittal to the U.S. Nuclear Regulatory Commission (NRC) of its intent to submit a license application for a conventional uranium mill and tailings disposal operation, or alternatively, a heap leach facility to be located at its Gas Hills properties in Fremont County, Wyoming. The NOI for this project was submitted to NRC on March 21, 2008 and amended on March 18, 2009. Please note that we currently anticipate submittal of the license application in the third quarter 2012, i.e., FY 2012.

Please accept my apologies for the lateness in providing this information. If you have any questions or require additional information, please feel free to contact me at my office at 505-474-6696 or via e-mail at jvelasquez@strathmoreminerals.com.
