Bruce Lin is the TL. John Burke work with him. You might have noticed that John Burke himself gave comments as a public citizen.

Mekonen,

Is John Burke the technical lead for the guide? Also, should the concurrence memo be addressed to Michele Evans, Thomas Bergman and Marian Zobler?

Jennifer,

RG 1.54 rev. 2 is edited by QTE & Analysis edited Joe Zoebel.

Please use the clean version of [RG 1.54 rev 2 & RG 1.54 Analysis]. I have attached the compare in both in case you want to see them.

**Subject:** RE: Files Attached. DO#349a RE: Technical Editing Request for Regulatory Guide 1.54, Revision 2 and the Regulatory Analysis (Eloise Ziegler, RES)

Mekonen,

I have no issues with the changes made by the tech editor. I added the references as requested by the tech editor and renumbered the reference list. Attached is the final clean version of the RG. I have also attached the compare version in case you want to see the changes I made.

Thanks,  
Bruce
