Subject: Transmittal of RG 1.54 Revision 2

Mekonen,

Attached is the final version of Regulatory Guide 1.54 Rev 2. The draft version was issued as DG 1242. All public comments received have been appropriately adjudicated. We coordinated the revision of this RG with Matt Yoder and Emma Wong in NRR/DCI/CSGB and Gregory Makar in NRO/DE/CIB1. I have also attached a redline version of the RG and our responses to the public comments. See ADAMS Package ML102090152 for other related documents.

I will be out on leave starting this afternoon until Aug 9th. If you have any questions, please see John Burke.
