Who are the TLs for each one?

Mekonen

Mekonen,

Last week MEEB (Tom and John B.) agreed to take on RG 1.199 and RG 1.143, however RG 1.142 and RG 1.199 are tied and need to be changed back to SGSEB per Herman's request. Please change the tech office and tech lead for RG 1.199 and let me know when the change has been made.

Thanks,

Jennifer

Jennifer,

Okay, but RG 1.199 should remain under SGSEB.

Herman,

RG 1.142 still under SGSEB. Has the due date for RG 1.142 changed (i.e., due to RGDB by 1/1/2011)?

Thanks,

Jennifer

It's okay for MEEB to take the lead on RG 1.143. RG 1.199, "Anchoring" is tied to RG 1.142 and should remain with SGSEB.

MEEB is taking the lead for 2 of our/your Reg Gds. Talk to John about an SGSEB rep his work group. It could be you or someone else.

Can you transfer these RGs to MEEB?

Thanks

OK, we will do both

In my opinion we could pick up revisions for RG 1.199 "Anchoring Components and Structural supports in Concrete" and RG 1.143 "Design Guidance for Radwaste Systems" both for SGSEB
