Dear Mr. Tokarz:

It has come to our attention that your NRC Material License No 12-32798-01 contained an error. License condition 10 of your license contained a place of use that should not have been on the license because the location is in an Agreement State. Be advised that if you intend to receive, use or store radioactive material in the State of Illinois you must obtain a license first. Enclosed is a corrected copy of your license. We apologize for any inconvenience this error may have caused you.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script, reading "Toye L. Simmons".
