NUCLEAR GENERATION DIVISION

November 24, 2010

Mr. Frederick D. Brown
Director, Division of Inspection and Regional Support
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Subject: Industry Speaker Notes from November 18, 2010, Public Meeting to Discuss Unintended Consequences of the Part 26 Minimum Days Off Requirements

Project Number: 689

Dear Mr. Brown:

Thank you for providing the opportunity on November 18 to discuss with your staff the unintended consequences of the Minimum Days Off (MDO) requirements of 10 CFR part 26, Subpart I. This meeting provided for an effective exchange of information and enabled for multiple viewpoints to be expressed in a very professional manner.

The Industry discussions on unintended consequences of MDO requirements were divided into four panel sessions: Operations, Maintenance, Vendor & Union, and Security. Notes used by each of the industry panelists have been collected and are provided as an attachment.

Thank you again for your assistance and support in organizing this meeting. If you have any questions, please feel free to contact me at 202-739-8108; jcb@nei.org or Scott Bauer at 202-739-8058; sab@nei.org.

Sincerely,

A handwritten signature in black ink, appearing to read "John C. Butler", with a stylized flourish at the end.

John C. Butler
