MEETING REPORT

DATE: October 28, 2010

TIME: 11:00 a.m. to 12:00 Noon

PLACE: Wingate Hotel
1801 Cliff Davis Drive
Gillette, WY 82718
307-685-2700

PURPOSE: This meeting is a quarterly update to present to the U.S. Nuclear Regulatory Commission (NRC) staff a detailed review of AUC LLC's (AUC) proposed Reno Creek *in situ* recovery (ISR) uranium project in the State of Wyoming, characterization actions to date, and future characterization activities. An agenda for this meeting is provided as Attachment 1.

ATTENDEES:

See Attendees List (Attachment 2).

BACKGROUND:

AUC submitted a Letter of Intent to the NRC staff on November 3, 2010, which supplemented its original letter of April 9, 2010. This letter notified the NRC staff that it intends to submit an application to operate an ISR at the Reno Creek site in Campbell County, Wyoming, by the end of 2011.

DISCUSSION:

NRC staff read the opening statement for the meeting and AUC proceeded to present its slide presentation of the project. Slides presented at this meeting are included as Attachment 3. AUC's presentation focused on the following topics:

- Project development strategy
- Hydrology update
- Geology update
- Environmental issues update

After the slide presentation, NRC staff reviewed the licensing process with AUC and emphasized the need to discuss particular subjects during future meetings. After NRC staff's discussion, the meeting was opened for questions.

ACTIONS:

None
