Dear Ms. Cook:

I would request that the amendment to add Alan Marvin, RPh as an Authorized Nuclear Pharmacist be expedited if at all possible.

Alan Marvin has completed an authorized nuclear pharmacist course and has worked as an authorized nuclear pharmacist. (Documentation was included in the amendment request).

PharmaLogic currently has only one authorized nuclear pharmacist in Casper, Wyoming at this time. The addition of another nuclear pharmacist is critical to the operations of the facility.

The additional listing of Alan Marvin would ensure the continuous supply of radiopharmaceuticals and the provision of radiopharmaceutical services is continued to the authorized users throughout the State of Wyoming.

I wish to thank you for your consideration of this request.

Sincerely,

**Gerard Strugala, RPh, BCNP
Vice President, Operations**
