Subject: NRC Form 7 Application for Extension – XW017

Dear Mr. Moore:

Export Permit XW017 was issued to Duratek Services (a subsidiary of EnergySolutions) for the export of 680 pounds of radioactive waste resulting from the refurbishment of one radioactive contaminated pump impellor and associated equipment which belongs to Ontario Power Generation's Pickering Station.

For reasons beyond our control, the Pickering Station will not have an import permit issued by Canada to receive the material until after the expiration date of XW017. Enclosed is a Form 7 requesting an amendment of the expiration date to December 31, 2011. There are no other changes requested. Also enclosed is a check in the amount of \$780 for the amendment fee.

If you have any questions or need additional information, please do not hesitate to call me at 865-220-1478.

Sincerely,

A handwritten signature in black ink, appearing to read "Philip Gianutsos".
