Subject: Stepan 3rd Quarter Groundwater Sampling (Sept/October 2010)

Hi Mark,

I received the 3rd Quarter groundwater sampling results for the Stepan, NJ site. I just wanted to clarify that all 3 burial pits are in license suspension (Pit No. 1 was suspended in January 2010). Your letter indicated that only Burial Pits # 2 and #3 were in suspension. I also reviewed the groundwater data and confirmed that although Well#9 exceeded 15pCiL for gross alpha resampling of this well in accordance with the sampling protocol showed results at 6.97pCi/L. Thus no further isotopic analyses was conducted per License Condition No. 14 (STC-1333).
