RE: Geotechnical Borings at the Propose Twin Buttes Substation within Cultural Resource Site 10BV246 (MW004), Eagle Rock Enrichment Facility, Bonneville County, Idaho

Dear Mr. Kay:

Thank you for requesting our views on geotechnical drilling within the boundaries of site 10BV246 (MW004) for the proposed Twin Buttes Substation. While Dr. Reid did review and accept the data recovery report for this project, *we will need two hard copies of the report sent to us in the mail. We do not accept reports via email.*

With this said, we agree that you can proceed with the geotechnical drilling at this location. As you know, however, we will need to have a fully signed Memorandum of Agreement from the Nuclear Regulatory Commission before construction of the facility can begin.

We appreciate your cooperation. If you have any questions, please feel free to contact me at 208-334-3847, ext. 107.

Sincerely,

Susan Pengilly  
Deputy SHPO and  
Compliance Coordinator
