

SAFETY INSPECTION REPORT AND COMPLIANCE INSPECTION

1. LICENSEE/LOCATION INSPECTED: <i>Reith R. Rydy</i> <i>2454 W. C.D. 450 N.</i> <i>La Porte, IN</i> REPORT NUMBER(S) <i>2010-01</i>	2. NRC/REGIONAL OFFICE <i>U.S. Nuclear Regulatory Commission</i> <i>2443 Warrentonville Rd</i> <i>Liste, IL 60532</i>
---	--

3. DOCKET NUMBER(S) <i>030-78694</i>	4. LICENSEE NUMBER(S) <i>13-24509-01</i>	5. DATE(S) OF INSPECTION <i>11/8/10</i>
---	---	--

LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

- 1. Based on the inspection findings, no violations were identified.
- 2. Previous violation(s) closed.
- 3. The violation(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy, NUREG-1600, to exercise discretion, were satisfied

_____ Non-cited violation(s) were discussed involving the following requirement(s):

- 4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11

Statement of Corrective Actions

I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

- Main Office Inspection Next Inspection Date: 10/2015
 Field Office Inspection La Porte, IN
 Temporary Job Site Inspection

PROGRAM SCOPE

The licensee possesses 1 Troxler moisture density/gauge for use daily/weekly during the construction season (May-November) for soils engineering projects. The licensee does not perform any service or maintenance activities on its gauges; these services are performed by the manufacturer. Currently, the licensee employs four authorized gauge users who have completed manufacturers training. The gauge is stored in a locked cabinet in the licensee's facility in South Bend, Indiana.

Performance Observations

At the time of the inspection there were no temporary job sites. The licensee possesses one Troxler gauge which is in storage in South Bend, Indiana. The South Bend facility is the licensee's field head quarters. The licensee keeps these locations on its license in case a temporary job site is local and is convient to store this gauge at this field office. The licensee is in the process of removing all radioactive gauges from its license. The licensee is considering terminating its license, but may purchase other construction companies that possess these gauges and feels that they may be required to keep this license in-order to acquire these companies.
