Subject: Final RAI (ninth set) for Non-LOCA Topical Report MUAP-07010
Attachments: US-APWR Topical Report MUAP-07010 RAIs 9th set.pdf

MHI,

Attached is the RAI document (9th set) based on information pertaining to the Rod Ejection Accident (REA) methodology and analysis using TWINKLE-M code as referenced in the Non-LOCA Topical Report. This RAI was sent to you in draft form and, as requested by MHI, has been revised to exclude the proprietary information. There is no proprietary version of the attached RAI.

Your licensing review schedule assumes technically correct and complete responses within 30 days of receipt of RAIs. However, MHI can answer questions **2, 3, 5, 6** and **7** within 45 days, and questions **1** and **4** within 60 days as requested. Please submit your RAI response to the NRC Document Control Desk.

Thanks,

Mike Takacs
Project Manager, US-APWR Projects Branch
Office of New Reactors
U.S. Nuclear Regulatory Commission
