SUBJECT: MAINTENANCE OF REFERENCE MATERIALS AT THE HANOVER BRANCH LIBRARY FOR THE NORTH ANNA POWER STATION, UNIT 3 COMBINED LICENSE APPLICATION

Dear Ms. Morgan:

This letter is a follow-up to our telephone conversation on August 31, 2010, and December 10, 2010, concerning the maintenance of relevant documents by your library. This document is related to the U.S. Nuclear Regulatory Commission (NRC) staff's review of the Dominion Virginia Power, LLC application for a combined license (COL) for a new nuclear power plant at the North Anna Power Station, Unit 3 site. Enclosed is one hardcopy of the revised Environmental Report for the COL for North Anna Power Station, Unit 3 and one electronic copy.

It is requested that you replace and discard the information you currently have referenced for the North Anna COL with this new submission; with the exception of the NRC documents NUREG-1811, "Environmental Impact Statement for an Early Site Permit at the North Anna ESP Site" and NUREG-1917, "Supplemental Environmental Impact Statement for the Combined License (COL) for North Anna Power Station Unit 3." Members of the public who request information that is removed should be directed to contact me at the information below. This information is available for public review in the NRC Agency-wide Documents Access and Management System (<http://www.nrc.gov/reading-rm/adams.html>).

The NRC staff appreciates your willingness to assist the public in participating in the COL application review process for the new reactor. As discussed, your support would consist of providing shelf space in your reference section which would be used for making documents related to the NRC staff's environmental review of the new reactor license application available to the public.

L. Morgan
