(Formerly No. 52-19336-01 and 24-31101-01)

Dear Mr. Jackson:

Pursuant to your recent visit, please accept this correspondence as our written intent to renew the above referenced license and formal notification of our program for continued safeguarding of the licensed materials currently held for storage purposes only.

As you are aware, there are no current means available for the disposal of the licensed materials in Puerto Rico and the above referenced license was issued for the sole purpose of storage and safeguarding the subject materials. Please be advised, the licensed materials remain in secure storage, and in compliance with applicable NRC regulations at 10 Calle Gertrudis, Ocean Park, San Juan, PR 00911-1304 under the care, custody and control of Kelvin A. Massey, Radiation Safety Officer until available for disposal or otherwise notified. There has been no change in the means or method of security and access to said materials. There has been no deterioration or damage to the storage container. Finally, the said materials are available for inspection at the request of your office.

Please find in this transmittal the completed NRC Form 313, *Application for Materials License* endorsed by Mr. Coleman and submitted for the purpose of renewing the license for the restricted and limited purposes noted above. As in the past, we respectfully request all licensee fees be waived due to the extenuating circumstances involved.

Thank you in advance for your continued cooperation.

Sincerely yours,

Kelvin A. Massey, Radiation Safety Officer
