Subject: RE: NRC Licensed Program Information (ammended)
Attachments: Hazmat Training Test.pdf; Nuclear Gauges Transp Box Modification.jpg; Nuclear Gauge Inventory List.pdf; Hazmat Certificates.pdf

Importance: High

Scott,

Attached find documents addressing the deficiencies found in our safety program during your recent visit to our facilities. Within the docs are a copy of the administered exam reviewing and discussing what was included in the training, copy of the inventory list, and photo of second physical barrier in transp cage. Eight pick-up trucks cages were modified. We, Mr. Luis García and myself are still working in the audit and will submit it early next week so we can proceed with the close out meeting or call. If you have any questions or comments please do not hesitate to contact us.

Ammendments: Corrected Hazmat Certificates , Corrected and duly signed Gauges Inventory List

Best regards,

Rolando Dávila
Laboratory Manager

Subject: NRC Licensed Program Information

Mr. Davila,

Please respond with a brief message acknowledging receipt of this message.

The information we discussed this afternoon is enclosed. Let me know if you need any additional information.

The website for the US Department of Transportation training guidance is:
<http://www.phmsa.dot.gov/hazmat/training/requirements>

Specifically, Hazmat Training Must Include:

1. General awareness/familiarization
2. Function-specific, training
3. Safety
4. Security awareness
5. In-depth security training, if a security plan is required
6. Driver training (for each hazmat employee who will operate a motor vehicle)

NUREG 1556, Volume 1 contains an example Portable Gauge Audit Checklist in Appendix F. The NUREG can be accessed via NRC's website at:

<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/r1/sr1556v1r1.pdf>

If I can be of further assistance, contact my office.

Sincerely,
Scott Wilson
