Thanks, John. That was funny. And, I'm sure, the beef was very good. I'll talk to Tanya. Have a great day!

Alan,

Yes, beef were sacrificed at the end of the 2008 and 2009 growing seasons. Both cows were delicious. The results of the sampling were provided in the responses supplied to NRC last week. They were sent to the attention of Tanya Oxenberg and she confirmed she received them. If you need the specific data let me know and I will track it down and send to you.

Thank you, John. Let's hope the others are half as responsive.

Oh, on another note; was beef sampled for the Lost Creek site? Were any livestock sacrificed?

Thank you,
Alan

Alan,

Thanks for chasing this issue. The comments I sent you yesterday are our final thoughts.

Has everyone had a chance to review what was accomplished last Friday? We need to get this document finalized so that it can be signed. I propose that COB, Friday, Apr 30, be the last day for changes. Thank you for your cooperation.
